**MACROPRO**  
INCREASE OR DECREASE DAILY CALORIES  
WITH NATURE'S PERFECT FOOD

MacroPro is a convenient nutritional beverage engineered to be the perfect food. Due to its high-quality ingredients and optimal fat:carbohydrate:protein ratio, it is ideal for anyone looking to scientifically increase or decrease their total daily caloric intake.

Instead of containing low-quality, unhealthy lipids, such as synthetic *trans* fats (partially hydrogenated oils), palm kernel oil or soybean oil, MacroPro is infused with high-quality, healthy lipids, such as coconut oil (medium-chain triglycerides) and high-oleic sunflower oil (think olive oil). These lean-body lipids feed the body without creating unwanted adipose tissue or causing inflammation like low-quality oils.

MacroPro also contains the healthiest proteins, such as undenatured whey protein, undenatured micellar casein, and undenatured egg albumin. Not only are these proteins superior for total-body recuperation and repair, but they excel at optimizing muscle tissue levels in calorie-deficit environments.

Finally, MacroPro contains no inferior fat-inducing carbohydrates, such as maltodextrin. On the contrary, only the most advanced, healthy carbohydrates are used, such as palatinose, highly branched superdextrin and soluble corn fiber. These carbohydrates provide a stable infusion of energy and are ideal for both short and long-term replenishment of the body's glycogen stores.

Because MacroPro is nearly the perfect food, it can be used in many different ways to achieve whatever goals you desire. Whether you want to be as big as possible or as thin as possible or as lean as possible, MacroPro is a delicious way to look and feel better.

\* Essential Amino Acids  
\* Branched-Chain Amino Acids  
\* Important Nonessential Amino Acids

**INGREDIENTS:** Carbohydrate mix (palatinose, highly branched superdextrin, soluble corn fiber), protein mix (whey protein concentrate<sup>†</sup>, micellar casein<sup>†</sup>, egg white protein<sup>†</sup>), vegetable oil powder (vegetable oil mix [high-oleic sunflower oil<sup>†</sup>, coconut MCT oil<sup>†</sup>], modified food starch, sodium caseinate, mono- and diglycerides, dipotassium phosphate, lecithin, sodium silicoaluminate, vitamin E), dutch processed cocoa powder, natural and artificial flavors, salt, lecithin, acesulfame-K, sucralose.

**CONTAINS:** Milk, Egg, Soy. Produced in a facility that uses wheat and peanut products.

- <sup>†</sup> Ultrafiltered and undenatured
- <sup>†</sup> Ultrafiltered and undenatured
- <sup>†</sup> Undenatured
- <sup>†</sup> 80% monounsaturated oleic acid
- <sup>†</sup> Accounts for a significant portion of MacroPro's saturated fat content

\* The % Daily Value (DV) tells you how much a nutrient in a serving of food contributes to a daily diet. 2,000 calories a day is used for general nutrition advice.

**SUGGESTED USE:** To decrease daily calories, vigorously mix one scoop of MacroPro per 4-6 oz of water or milk for 30-60 seconds. To increase daily calories, vigorously mix three scoops of MacroPro per 12-16 oz of water or milk for 30-60 seconds. Note the extra calories when combined with milk. Consume MacroPro two to three times per day depending on your needs and goals. MacroPro mixes instantly with a spoon and tastes great...**GUARANTEED!**
