

Reminiscent of times gone by, Nectar® Naturals conjures images in which man and nature reside in harmony. Toiling in the field with one's own hands, cooking from scratch in the kitchen, picking and eating fruit fresh from the tree. Nectar® Naturals is the obvious, evolutionary progression of our flagship product Nectar®, containing no artificial sweeteners, colors or flavors. Nectar® Naturals is designed for those who want only the highest-quality ingredients. Nectar® Naturals . . . from nature . . . bringing you back to nature.

To ensure that Nectar® Naturals tastes every bit as good as regular Nectar®, we reformulated and drastically improved its sweetening system. No longer is there a slight, strange aftertaste that is typical of natural sweeteners, such as stevia. Working tirelessly over the past several years, we developed a proprietary, all-natural sweetening system that equals the sweetness and tastiness of real sugar. What is missing? Only the negative health effects associated with sugar's consumption. Nectar® Naturals is now so perfect and delicious that it is available in six amazing flavors . . . Natural Fruit Punch, Natural Orange, Natural Peach, Natural Chocolate, Natural Strawberry Cream and Natural Vanilla.

SUGGESTED USE: Vigorously mix 2 oz of water or milk per serving (1/4 scoop) of Nectar® Naturals for 30–60 seconds. One full scoop, providing 23 g of protein, 0 g of fat and 0 g of sugar, may be mixed with 8 oz of water or milk. Note the extra calories when combined with milk. Consume the desired number of servings two to three times per day to satisfy your protein requirements. Remember, the best times for supplementing protein are immediately upon rising in the morning, after intense physical activity, such as weight training, and prior to sleep. Nectar® Naturals mixes instantly with a spoon and tastes great . . . GUARANTEED!

Notice: Use this product as a food supplement only. Do not use for weight reduction.
