NECTAR®

NATIVE WHEY PROTEIN ISOLATE

Welcome to the critically acclaimed world of Nectar®! Gone are the days of low-quality whey protein. Gone are the days of those blah-tasting protein drinks that promise much but deliver little. Nectar®, once and for all, breaks the mold by combining the highest-quality native whey protein isolate ever developed with a flavoring system so fruitilicious that you will never drink a different whey protein shake again.

With over ten delicious flavors, ranging from Strawberry Kiwi, to Fuzzy Navel, to Lemon Tea, Nectar will keep you coming back for more.

Nectar® whey protein isolate derives from rBST-free fresh milk sourced from local grass-fed cows in the USA. It is produced through cold filtering to remove all sugar and fat, leaving only native, pure whey protein. Nectar® is instantly soluble and has no taste so that you will only experience the best fruit flavors that nature has to offer.

• Important Nonessential Amino Acids

INGREDIENTS: Whey protein isolate*, citric acid, lecithin, natural and artificial flavors, acesulfame-K, sucralose, gardenia fruit juice powder.

CONTAINS: Milk, Soy. Produced in a facility that uses egg, wheat and peanut products.

* Ultrafiltered and undenatured; includes beta lactoglobulin, alpha lactalbumin, glycomacropeptides, immunoglobulin, b.s. albumin, protease peptone, lactoferrin, lactoperoxidase.

SUGGESTED USE: Based on taste preference, vigorously mix one scoop of Nectar® per 6–10 oz of water for 30–60 seconds. For best results, mix with a spoon; shaking may cause excessive foaming. For those with lower protein needs, one half scoop may be consumed with 3–5 oz of water. Consume Nectar® two to three times per day to satisfy your protein requirements. Remember, the best times for consuming protein are immediately upon rising in the morning, after intense physical activity, such as weight training, and prior to sleep.

Notice: Use this product as a food supplement only. Do not use for weight reduction.

Every Nectar® contains a FreshShield™ sachet which removes all oxygen inside the package leaving only inert gases, such as nitrogen. Without oxygen, these inert gases envelop and protect the delicate protein powder and flavoring molecules from oxidation, rancidity, and bacterial growth. Our proteins are unique in their ability to have the same quality and taste from the day of manufacturing to the “best by” date.
