In the world of protein beverage powders, the name Nectar® signifies delicious fruit juice flavors. It means ZERO carbs and ZERO fat. It means instant mixability when mixed with water. It means a pure flavor with no strange aftertastes or hints of protein. It means native whey that derives from rBST-free cows that feed on grass and forage. To put it simply, Nectar® is the de facto image of quality when it comes to protein drinks.

As the symbol of protein excellence, we did not want to limit Nectar® to only fruit juice flavors. We therefore researched long and hard to find other beverage flavors that would be perfectly compatible with the high-quality standards that Nectar® has achieved. After much experimentation and discovery, we developed Nectar® Lattes. Caffeinated Caramel Macchiato and the original decaf Cappuccino highlight the perfect success we had in creating these coffee-flavored protein powders. With all of the taste characteristics of a barista-made coffee, Nectar® Lattes is sure to please the most discriminating coffee drinker.
