Amino-Tor™ provides the most effective performance-enhancing amino acids that athletes need for achieving optimal training results. Combining ideal amounts of glutamine as well as a 2:1:1 ratio of the branched chain amino acids leucine, isoleucine, and valine, Amino-Tor™ infuses muscles with the necessary nutrients for continued growth and recovery.

Unlike other amino acid formulas that are bitter and extremely unappetizing, Amino-Tor™ tastes nearly identical to pure, refreshing fruit juice...but without the sugar. Since all flavors contain only natural and healthy food colors, you never have to worry about the ill-effects of synthetic chemicals created in a lab. Each and every flavor of Amino-Tor™ is a culinary work of art that is designed to make you say, "WOW"!

Ⓢ CONTAINS BCAAs & GLUTAMINE

Syntrex® created Goliath® in response to the cry for a superior quality protein gainer at the best price possible. Instead of sugars, fats and low quality proteins, Goliath® predominantly contains complex carbohydrates and a mixture of the best proteins on the market. Goliath® mixes instantly with a spoon, tastes great and features a simple but powerful formula, maximized for promoting muscle growth and recovery. This combination produces a foundation for a protein gainer that towers above the rest.

Recognizing that protein is imperative for not only basic health, but also for any kind of muscle repair, recovery or growth, Syntrex® formulated Goliath® with a matrix of different proteins to ensure maximum gains in the shortest time possible. Whey protein is a fast-metabolized protein considered to be the gold standard for supporting the body's anabolic and immune processes. On the other hand, micellar casein is a slow-metabolized protein that enhances satiety and delivers a steady stream of amino acids to vital muscle tissue.

Unlike other meal replacements and gainers that rely heavily on fats to increase caloric density, Goliath® contains the least amount of fat possible. Staying away from simple sugars, Goliath® utilizes only long-chain carbohydrates derived from nutritious starches. These complex carbohydrates supply the foundational calories that a person requires for increased lean body mass and whole body recovery. Even though this approach costs more, it is a small price to pay for better health and better results.

As with all Syntrex® products, Goliath® includes scrumptious flavors with a velvety smooth texture designed to make a protein gainer pleasurable to drink. All flavors of Goliath® feature a delicious, creamy taste and dissolve instantly whether mixing with a spoon or shaker cup. With Goliath®, you will enjoy each and every sip without the usual clumps that plague other gainers in the industry.

Syntrex® has engineered a product that causes other gainers to tremble in the shadows . . . a true Goliath® amongst the ordinary.

- 🌿 GOOD SOURCE OF FIBER
- 🍪 PALATINOSE... NATURE'S PERFECT CARB

MacroPro is a convenient nutritional beverage engineered to be the perfect food. Due to its high-quality ingredients and optimal fat : carbohydrate : protein ratio, it is ideal for anyone looking to scientifically increase or decrease their total daily caloric intake.

Instead of containing low-quality, unhealthy lipids, such as synthetic *trans* fats (partially hydrogenated oils), palm kernel oil or soybean oil, Macropro is infused with high-quality, healthy lipids, such as coconut oil (medium-chain triglycerides) and high-oleic sunflower oil (think olive oil). These lean-body lipids feed the body without creating unwanted adipose tissue or causing inflammation like low-quality oils.

Macropro also contains the healthiest proteins, such as undenatured whey protein, undenatured micellar casein, and undenatured egg albumin. Not only are these proteins superior for total-body recuperation and repair, but they excel at optimizing muscle tissue levels in calorie-deficit environments.

Finally, Macropro contains no inferior fat-inducing carbohydrates, such as maltodextrin. On the contrary, only the most advanced, healthy carbohydrates are used, such as palatinose, highly branched superdextrin and soluble corn fiber. These carbohydrates provide a stable infusion of energy and are ideal for both short and long-term replenishment of the body's glycogen stores.

Because Macropro is nearly the perfect food, it can be used in many different ways to achieve whatever goals you desire. Whether you want to be as big as possible or as thin as possible or as lean as possible, Macropro is a delicious way to look and feel better.

- UNDENATURED MICELLAR CASEIN & EGG WHITE PROTEIN

**THE PROBLEM:** Protein powders that are low in quality, contain fat-inducing maltodextrin, taste horrible, require a blender to mix properly and contain only one very fast-acting protein. No doubt that most of these products are cheap, but who wants to gag something down day after day that's neither convenient nor beneficial?

**THE SOLUTION:** Matrix® protein powders. Taking years to properly formulate, Matrix® solves all of the problems currently afflicting those other low-grade protein powders. Most importantly, we completely stayed away from cheap, inferior protein sources, such as denatured sodium and calcium caseinate. We knew that to be the best, we had to use only the highest-quality protein sources, such as ultrafiltered whey protein, ultrafiltered milk protein, native egg albumin and glutamine peptides. The costs are much higher, but the rewards are significant. These proteins not only taste great, but they are unmatched in their ability to improve overall health as well as build critical bodily tissues and processes.

To make the highest-quality product in the industry, we knew we had to do even more. We decided that we would not settle for anything but the best-tasting protein powder on the market. After countless trials, we arrived at several delicious flavors that are pure ecstasy to consume.

Completing our solution to the problem, Matrix® is thoroughly instantized so that every scoop dissolves perfectly in your favorite beverage. No more disgusting clumps or blenders that dirty your kitchen . . . with Matrix®, you only need a spoon!

Matrix<sup>®</sup> Amino is the most comprehensive and effective amino acid supplement available to athletes. No other formula contains the high quantities and precise ratios of muscle-supporting amino acids, such as leucine, valine, isoleucine and HICA (the leucine metabolite that is 4 times as strong as leucine at only ¼ the dosage). Matrix<sup>®</sup> Amino also contains a powerful dose of citrulline and beta-alanine to maintain optimal blood flow, muscle pump and muscular endurance during intense exercise. Finally, a healthy dose of hydration-promoting electrolytes are included to help athletes power through every workout.

Unlike other amino acid formulas that are bitter and extremely unappetizing, Matrix<sup>®</sup> Amino tastes nearly identical to pure, refreshing fruit juice...but without the sugar. Since all flavors contain only natural and healthy food colors, you never have to worry about the ill-effects of synthetic chemicals created in a lab. Each and every flavor of Matrix<sup>®</sup> Amino is a culinary work of art that is designed to make you say, "WOW"!

- MIXES INSTANTLY
- SUSTAINED-RELEASE FORMULA
- ZERO FAT
- ZERO DENATURED CASEINATE SALTS

Being the major protein in milk, casein is one of the highest-quality proteins known to man. Unfortunately, inferior processing techniques can alter or denature this superior protein. Denatured caseins, such as sodium and potassium caseinate, dominate the marketplace but are devoid of the best qualities that make pure, native casein so wonderful.

Native casein, also known as micellar casein, is a special product produced in the absence of high heat and caustic chemicals through a gentle filtration method. It is easily differentiated from its denatured cousin by its superior, clean, creamy taste and ability to disperse instantly without becoming chalky or thick. In addition, micellar casein has superior health-inducing properties by optimizing muscular and whole-body recovery and repair.

Micellar Crème™ is the epitome of excellence for a casein protein product. It contains fresh, native micellar casein that is not tainted with inferior caseinate salts. Micellar Crème™ mixes instantly with a spoon, has a creamy, smooth mouthfeel and tastes just like a real milkshake.

 PROMINA™ WHEY ISOLATE

Welcome to the critically acclaimed world of Nectar®! Gone are the days of low-quality whey protein. Gone are the days of those blah-tasting protein drinks that promise much but deliver little. Nectar® once and for all breaks the mold by combining Promina™, the highest-quality whey protein isolate ever developed, with a flavoring system so fruitilicious that you will never drink a different whey protein shake again.

If you like the refreshing taste of fruit juice, you'll love Nectar®! With its mouthwatering fruit flavors, Nectar® is truly a protein drink you will look forward to drinking each and every day. Whether it be Apple Ecstasy, Caribbean Cooler, Crystal Sky, Fuzzy Navel, Lemon Tea, Pink Grapefruit, Roadside Lemonade, Strawberry Kiwi, Twisted Cherry or Wild Grape, Nectar® will keep you coming back for more.

What's more, we did something totally amazing by engineering Nectar® to be so delicious that you can eat it right out of the container. Imagine putting a protein powder in your mouth and it tasting like candy. Imagine this protein powder having ZERO carbs and ZERO fat. Stop imagining! We've brought you Nectar®!

 PROMINA<sup>™</sup> WHEY ISOLATE

In the world of protein beverage powders, the name Nectar<sup>®</sup> signifies delicious fruit juice flavors. It means ZERO carbs and ZERO fat. It means instant mixability when mixed with water. It means a pure flavor with no strange aftertastes or hints of protein. To put it simply, Nectar<sup>®</sup> is the de facto image of quality when it comes to protein drinks.

As the symbol of protein excellence, we did not want to limit Nectar<sup>®</sup> to only fruit juice flavors. We therefore researched long and hard to find other beverage flavors that would be perfectly compatible with the high-quality standards that Nectar<sup>®</sup> has achieved. After much experimentation and discovery, we developed Nectar<sup>®</sup> Lattes. Caramel Macchiato, Vanilla Latte and the original decaf Cappuccino highlight the perfect success we had in creating these coffee-flavored protein powders. With all of the taste characteristics of a barista-made coffee and with no off-note flavors, Nectar<sup>®</sup> Lattes is sure to please the most discriminating coffee drinker.

 PROMINA™ WHEY ISOLATE

 100% NATURAL INGREDIENTS

 TASTELESS IN FOOD & DRINK

Nectar<sup>®</sup> Medical is a 100% natural protein formula designed to exceed even the most stringent and demanding requirements of the medical community. It is designed around Promina™, a superior-quality whey protein isolate that is known for its utmost purity, unwavering consistency and pleasant taste. Whey protein isolate is considered by many experts to be the single highest-quality source of protein for human nutrition. Its bioavailability is without compare, and its amino acids are utilized more efficiently than any other source of protein.

Because Nectar<sup>®</sup> Medical has a bland taste and is instantly soluble and dispersible, it can be mixed unnoticeably and easily into nearly any beverage or food item, such as milk, tea, juice, flavored water, cereal, soup, pudding or mashed potatoes. Likewise, Nectar<sup>®</sup> Medical is an ideal product to be used in tube-feeding applications due to its ease of use and health-promoting benefits.

 ALL-NATURAL FORMULA

Reminiscent of times gone by, Nectar<sup>®</sup> Naturals conjures images in which man and nature reside in harmony. Toiling in the field with one's own hands, cooking from scratch in the kitchen, picking and eating fruit fresh from the tree. Nectar<sup>®</sup> Naturals is the obvious, evolutionary progression of our flagship product Nectar<sup>®</sup>. Containing no artificial sweeteners, colors or flavors, Nectar<sup>®</sup> Naturals is designed for those who want only the highest-quality ingredients. Nectar<sup>®</sup> Naturals . . . from nature . . . bringing you back to nature.

To ensure that Nectar<sup>®</sup> Naturals tastes every bit as good as regular Nectar<sup>®</sup>, we reformulated and drastically improved its sweetening system. No longer is there a slight, strange aftertaste that is typical of natural sweeteners, such as stevia. Working tirelessly over the past several years, we developed a proprietary, all-natural sweetening system that equals the sweetness and tastiness of real sugar. What is missing? Only the negative health effects associated with sugar's consumption. Nectar<sup>®</sup> Naturals is now so perfect and delicious that it is available in six amazing flavors . . . Natural Fruit Punch, Natural Orange, Natural Peach, Natural Chocolate, Natural Strawberry Cream and Natural Vanilla.

SuperGLU™ is an ultra-pure, micronized glutamine powder that solves all of the issues facing other glutamines on the market. By containing 100% natural glutamine powder, SuperGLU™ eliminates the unknown and harmful impurities associated with synthetic glutamine. The superior manufacturing process of SuperGLU™ guarantees a snowy white product without off-tastes and odors.

Glutamine is the most abundant free amino acid in the body and is present in high concentrations in the immune system, digestive tract and muscle cells. Over time, however, these glutamine levels can be depleted by strenuous exercise, infections, injuries and prolonged stress. Each 5g serving of SuperGLU™ disperses and suspends instantly in solution and helps to restore the body's diminished reserves of glutamine, providing optimal health and muscle recovery.

🐄 rBST-FREE, GRASS-FED WHEY

⊕ UNDENATURED MICELLAR CASEIN & EGG WHITE PROTEIN

Trophix<sup>®</sup> combines four diverse protein sources (casein, egg albumin, whey protein and glutamine peptides) into one versatile product. Casein, the major protein source in Trophix<sup>®</sup>, is a slow-acting protein that is absorbed into the body over an extended period of time. This not only provides the body with a lasting source of amino acids, but also creates long-term feelings of satiety and fullness.

Completing Trophix's<sup>®</sup> unique blend are whey protein, egg albumin and glutamine peptides. Whey is a fast-acting protein source which supports the immune system and supplies the body with tissue-building bursts of amino acids. Egg albumin is a well-rounded, medium-release protein that perfectly promotes the growth and maintenance of lean muscle tissue with its excellent amino acid profile and abundance of growth factors. Finally, glutamine peptides is a protein source unmatched in its ability to provide bioavailable glutamine, one of the most important building blocks in the human body. By imparting the unique benefits of these diverse proteins, Trophix<sup>®</sup> is clearly the perfect protein powder to support both short- and long-term health and recovery.

As with all Syntrax<sup>®</sup> products, Trophix<sup>®</sup> uses only the highest-quality protein sources and flavoring agents. These ingredients may be more expensive than those used in other protein powders, but they taste delicious, ensure instant mixability and retain all of their health benefits. With Trophix<sup>®</sup>, you'll never have to choke down a clump-filled, awful-tasting protein shake again.

Whey Shake™ is the critically acclaimed protein powder that scores top honors for highest quality and best taste. To produce such a distinguished product, we had to use the very best and most refined ingredients, such as Promina™ whey protein. Cold filtered and undenatured, Promina™ whey proteins are painstakingly tested for consistency, flavor, protein content, and mixability. To this clean tasting, delicious protein base, we added glutamine peptides and the best extracts and flavors the world has to offer. The result is a product of the highest quality . . . a product with consistently correct protein levels, consistently superior mixability and consistently incredible taste.

The painstaking quality control and attention to detail that goes into Whey Shake™ ensures that it will vastly outperform every other protein powder on the market. From deliciousness and mixability, to overall health benefits, to exercise performance and muscle growth, Whey Shake™ is guaranteed to be the new, unbeatable gold standard.
